Summary

Detail-oriented MERN Stack Developer with 4+ year of experience building scalable and user-focused web applications. Strong in problem-solving, debugging, and developing secure RESTful APIs. Proven ability to deliver responsive UI and collaborate with cross-functional teams. Eager to learn new technologies and grow under mentorship in a fast-paced environment.

Technical Skills

Frontend	React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, React Bootstrap, Redux Toolkit, React Router, Axios
Backend	Node.js, Express.js, RESTful APIs, JWT Authentication, Middleware Design, Chart.js
Database	MongoDB, Mongoose, MySQL, SQL Queries, CRUD Operations, Aggregation Pipelines
Tools	Git, GitHub, Postman, VS Code, npm, CI/CD pipelines,AWS

Professional Experience

MERN Full Stack Developer

Oct 2023 – Present

Legend Tech Solutions — Remote

- Architected and delivered scalable MERN stack applications from design to deployment, improving system maintainability and performance.
- Built pixel-perfect, fully responsive React.js UI components using Redux Toolkit for state management, reducing reported UI inconsistencies.
- Gained hands-on experience in full software development lifecycle under senior guidance.
- Improved application performance by 20% by optimizing API response handling.
- Developed 10+ reusable UI components, improving development speed.
- Delivered responsive UI, reducing layout issues across devices.
- Reduced bug resolution time by approximately 30% through systematic debugging.

Php Full Stack Web Developer

Dec 2019 – May 2021

McLansys Solutions Pvt. Ltd.

- Developed and maintained responsive web applications.
- Improved page load performance by optimizing MySQL queries and maintained high application uptime by quickly resolving production issues.

Projects

Student Fees Management System

React.js, Node.js, Express.js, MongoDB, JWT

- Built a full-stack fee management platform with secure JWT authentication, role-based dashboards for admins and students, and structured data pipelines for tracking payments and generating reports.
- Designed a responsive, intuitive UI enabling efficient record management and real-time status tracking.

User Expense Tracker

React.js, Node.js, MongoDB, Chart.js

- Developed an interactive personal finance tool with dynamic data visualizations (charts/graphs), advanced filtering, and keyword search to surface spending trends.
- Implemented clean component architecture and efficient MongoDB queries, minimizing render latency and improving UX responsiveness.

Education

Bachelor of Engineering — Electronics & Communication

2013 – 2017

Anna University Affiliated College, India
